Phase 8 - Project Demonstration

Project: ComicCraft - AI Comic Story Creator **Team ID / members:** Fill in your team's details **Demo date:** Fill in

Suggested 6-minute demo flow

Order	Section	Time	Presenter
1	Introduce the creator problem and project goal	45 sec	Assign teammate
2	Explain architecture and optional AI providers	60 sec	Assign teammate
3	Open the home form and enter a fresh prompt	45 sec	Assign teammate
4	Generate and review all five panels	90 sec	Assign teammate
5	Download and open the PDF	60 sec	Assign teammate
6	Show API docs and health status; describe limitations	60 sec	Assign teammate
7	Questions and close	60 sec	All presenters

Demo script

Use a prompt that is not the default sample, for example: "A young gardener discovers a tiny dragon in a greenhouse and helps it find its way home." Point out the hero, location, panel sequence, dialogue, and PDF link. Explain whether the run uses hosted APIs or the local demo path; do not imply hosted AI is active unless the keys are configured and the run confirms it.

Feature demonstration tracker

Feature	Proposed	Show live?	Presenter note
Story input form	Yes	Yes	Enter original prompt and settings
Five-panel story	Yes	Yes	Summarize opening, problem, action, and ending
AI-generated illustrations	Yes	Only if configured	Label local fallback accurately
PDF export	Yes	Yes	Download and open the PDF
JSON API	Yes	Optional	Use `/docs` to show the schema and route
Health endpoint	Yes	Optional	Show only configured/not-configured booleans

Communication and team roles

Role	Name	Responsibility
Project coordinator	Fill in	Keep the agenda and handoffs on time
Application presenter	Fill in	Demonstrate form and preview
AI / backend presenter	Fill in	Explain API and fallback behavior
Documentation / testing presenter	Fill in	Show setup and test evidence
